Dear Smith Alumnae and Friends,

I invite you to join Professor Steven Williams and fellow Smith alumnae for an exclusive journey into the heart of East Africa. This 13-day journey was thoughtfully designed to explore Tanzania's fascinating history and culture while taking advantage of premier wildlife viewing.

Our adventure begins with a short, scenic flight to a private nature refuge and model for community-based tourism located just east of Serengeti National Park. This will make for the perfect launching point, offering not only your first taste of wildlife viewing, but several up-close, un-scripted encounters with members of the local Maasai community. Guests will also enjoy exclusive activities such as guided bush walks and night drives by infrared spotlight. Next we will spend three spectacular days immersed in the untamed wilderness of the magnificent Serengeti during the peak of the annual wildebeest migration.

After we depart Serengeti National Park, we will stop at Olupai Gorge—the site of the Leakey family's well-known archeological discoveries—en route to the lush and verdant Ngorongoro Crater, which is home to the highest concentration of wildlife in the world. Your camp is perched high above the crater floor in a forest of umbrella acacia. To complete our already unforgettable journey, we will spend the last two days at Gibb's Farm, a peaceful, eco-friendly sanctuary conveniently located near the village of Karatu for additional cultural interactions and a delicious farm-to-table experience.

Limited to just 18 travelers, space is available on a first-come, first-served basis, so be sure to contact us early to reserve your spot on this remarkable journey.

Sincerely,

Elizabeth A. Bigwood
Director for Travel
Office of Alumnae Relations, Smith College

Your Study Leader

Steven Williams, PhD, is a molecular biologist, geneticist and tropical medicine researcher who has worked in all corners of the globe. He has worked doing tropical disease research with colleagues in Tanzania and Kenya for decades. His research beginning in the 1980s has focused on an important group of tropical diseases termed the NTDs (neglected tropical diseases). These diseases afflict approximately 1.5 billion out of the 7 billion people living on our planet. Due to the location of Tanzania and Kenya in East Africa and the long tradition of infectious disease research in the region, NTD research has historically been of great importance in both countries. Steve currently holds several grants from the Bill and Melinda Gates Foundation and is an active participant in the Task Force for Global Health and the Global Alliance for the Elimination of Lymphatic Filariasis. As a hobby, he also studies parasites of endangered species from many parts of the world. Some of these include the critically endangered North American black-footed ferret, various African mammals, and a variety of marine mammal species. He is the author of over 80 scientific papers and two books.

For more information on this and other Smith departures, visit http://alumnae.smith.edu/travel
What’s Included

- Tanzanian-born, English-speaking, professional guides with a minimum of 10 years’ experience
- Accommodations in deluxe, walk-in tents (with en suite bathrooms) and comfortable lodges
- All meals: 10 breakfasts, 10 lunches, 9 dinners, and unlimited snacks and bottled water in vehicles
- Airport transfers for guests who arrive/depart on scheduled trip dates
- Daily safari briefings to help you prepare for each activity
- Related fees for all scheduled sightseeing, park, and cultural excursions
- Guaranteed window seat in a custom-made, 4-wheel drive safari vehicles
- Scenic internal flight to the Serengeti
- Complete pre-departure information and access to a personal safari consultant

Optional Hot Air Balloon Ride

At sunrise, you have the option to take a hot air balloon over the breathtaking Serengeti savannah. After landing, enjoy champagne and a full English breakfast in the bush before rejoining the group on a wildlife viewing drive.

Space is limited; advanced reservations required. $540/person. *Height/weight restrictions apply.
From luxury lodges to eco-friendly tented camps, your accommodations are hand-selected for their prime locations and authentic African feel.

Rivertrees Country Inn  
Nestled in the foothills of Mount Meru, the inn blends simple elegance and modern convenience.

Thomson Nyumbas  
Nyumba means “home” in Swahili, and these comfortable, eco-friendly accommodations will feel like one. Each spacious tent offers cozy bedding, solar lighting and an en suite bathroom with flush toilet.

Our itinerary includes stays at:  
Eastern Serengeti Nyumba – exclusive camp set on a private nature refuge.  
Southern Serengeti Nyumba – situated according to wildlife migration.  
Ngorongoro Crater Nyumba – perched on the rim high above the crater floor.

Gibb’s Farm  
Fresh food, fresh air, and fresh perspectives abound. This award-winning eco-lodge’s cottages, set amidst the working farm’s lush gardens, are the ultimate in sustainable luxury.

Tanzania Wildlife & Cultural Safari  
March 7-19, 2017  
$6,990 per person  
Single supplement: $700

Please reserve ______ space(s).  
Enclosed is my non-refundable deposit of ________ ($700/person).

Accept my check made payable to Thomson Safaris  
or charge my:  
[ ] Visa  [ ] MasterCard  
[ ] Discover  [ ] American Express

Card #  
3 digit security code  
(4 digit for AMEX)  
Exp Date

Why Tanzania?
Visiting Tanzania will feel like stepping into your wildest dream. You'll stalk with lions, roam with elephants, strut with flamingos, feel dwarfed by a 2,000-foot-deep crater, stand beneath giant baobab trees, and sleep under the stars. You'll discover unbridled beauty at World Heritage Sites, practice tracking skills in remote wild lands, and experience peacefulness and connection to the Earth like never before.

You'll feel safe and comfortable every step of your journey. Known as “the Switzerland of Africa,” Tanzania is a peaceful country. The people of Tanzania are some of the most warmhearted individuals on Earth, and they graciously welcome visitors into their homes and delight in sharing their culture with guests.

Experience amazing wildlife viewing at Serengeti National Park, Ngorongoro Crater, and the Eastern Serengeti Nature Refuge, all of which are teeming with the animals you've dreamed of seeing on safari. Hone your wildlife spotting skills with the help of an expert guide, and make unforgettable memories on a once-in-a-lifetime adventure.

What to Expect
Your itinerary is specially designed to maximize your cultural and wildlife-viewing experience as well as your comfort. There is virtually no bad time to visit Tanzania. Rains in November and April motivate the perpetual movement of animals in search of water (also known as The Great Migration). The climate is typically dry, sunny, and warm. In northern Tanzania, expect temperatures with daytime highs in the 80s and lows in the 50s in the evenings and early mornings. Temperatures will be cooler at higher elevations, such as the rim of Ngorongoro Crater (7,200 feet). The timing of this trip was specifically chosen to occur just after calving season. Over a million wildebeest and zebra young will have been born just weeks before your arrival!

Activity Level
This tour involves exposure to the outdoors, full days of touring, and some walking, often along uneven terrain. This is not an active safari, but you should be in good physical condition in order to enjoy it to the fullest. Wildlife-viewing drives may last up to five hours on bumpy, dusty, and occasionally muddy roads. Since your comfort is a priority, these drives are minimized with wildlife viewing and/or cultural stops along the way.

Sustainable Travel
Thomson Safaris was selected as the tour operator for this trip because of their extensive expertise in northern Tanzania and award-winning reputation in the adventure travel business. Working exclusively in Tanzania for over 35 years, they are leaders in ethical, sustainable, and responsible tourism. Below are some of the many ways Thomson Safaris continues to give back.

- Thomson hires locally and provides excellent benefits, job security, and training.
- To minimize our impact on Tanzanian landscapes and wildlife, Thomson Safaris practices Leave No Trace ethics at all its camps and on its Mt. Kilimanjaro treks.
- Thomson cares about the environment: mobile camps utilize solar lighting and water-conserving technologies, the U.S. headquarters has 110 solar panels, providing 1/3 of its power, and the Tanzania office maintains an organic garden.
- Owners Rick Thomson and Judi Wineland have helped to set up sustainable local businesses, support local schools and women’s empowerment initiatives, and fund a 12,000-acre conservation project east of the Serengeti through their many partner philanthropy organizations.
- Thomson Safaris works with the organization Green Living Project in an effort to educate individuals and communities on diverse sustainable practices around the world.
- In 1996, a group of Thomson guests were touched by Tanzania’s limited educational resources and, along with Thomson owner, Judi Wineland, founded the nonprofit organization Focus on Tanzanian Communities (FoTZC). The heart of its mission is to partner with Tanzanian communities on sustainable development projects. In addition to funding, building, and donating much-needed supplies to local schools, FoTZC provides funding for healthcare, clean water and women’s empowerment initiatives.
**Experienced Guides**

Thomson Safaris was one of the first safari operators in Tanzania to insist on local, Tanzanian guides. All Thomson guides have a minimum of 10 years' experience in the field. More than just leaders, spotters, and wildlife experts, they are true ambassadors for Tanzania. In addition to superior wildlife spotting skills, your team of guides offers local insight that can't be found in guidebooks. They can't wait to share their country's treasures with you!

**Transportation while on safari**

You've gone halfway around the world to be on safari; you don't want to waste a single minute stuck in the mud or unable to cross the river. For that reason, Thomson Safaris uses specially customized Land Rover Defenders. These reliable, rugged vehicles are tough enough for river crossings, wild terrain, dirt roads, and anything that comes your way!

**Benefits of the Thomson Safaris' Customized Safari Vehicle:**

- While the vehicle is built to accommodate 8 passengers, a limit of 6 guests per vehicle means room to move and guaranteed window seats for everyone
- Better views because the seats have been lowered
- Protection from the sun due to the pop-up roof
- The ability to stand up and get 360° views when the roof is “popped up”
- Easy battery recharging via multiple US-style outlets in each vehicle
- Worry-free river crossings with a custom snorkel that keeps the engine going
- Complimentary snacks and bottled water, throughout the safari
- No mileage restrictions – you’ll go wherever the wildlife is

**Accommodations**

Accommodations have been chosen for their unique African feel, stunning settings, and ideal proximity to attractions. All lodges are comfortable and have electricity and private bathrooms. Your camps, which were designed exclusively by Thomson, are called Nyumbas (Swahili for “home”). They are eco-friendly mobile camps set on private sites that allow direct access to wildlife. The large walk-in tents feature real beds dressed in deluxe linens. En suite bathrooms include water basins, showers, and self-contained, pump-flush toilets. Due to ecological and conservation issues, none of the camps have fixed plumbing, and they utilize the abundant sunshine to provide solar-powered LED lighting. The camp chef prepares fresh gourmet meals from local ingredients, and restricted diets are easily accommodated with advance notice.

Accommodations for your trip include:

**Rivertrees Country Inn, 1 night**

Nestled in the foothills of Mount Meru, in view of Mount Kilimanjaro, this peaceful country estate combines simple elegance and modern convenience. Wake up in your farmhouse-style room to the sound of the rushing Usa River, and enjoy a hearty breakfast in an open-air, thatched-roof dining area.

**Thomson Eastern Serengeti Nyumba, 2 nights**

Wake to exceptional views of the Serengeti at this private, remote site. After a day of adventure, you'll appreciate the comforts of the camp. Enjoy a hearty dinner prepared fresh from local ingredients, and discuss the day's excitement with your fellow travelers and attentive staff.

**Thomson Serengeti Nyumba, 3 nights**

These semi-permanent, seasonal camps are strategically plotted across the Serengeti according to wildlife migration patterns. Each location offers comfort in the heart of the wilderness. With spacious tents, cozy
bedding, and en suite bathrooms, you’ll have to look outside to remember that you’re deep in the bush. Best of all, with eco-friendly features like solar lighting, you’re not harming the stunning landscape.

**Thomson Ngorongoro Nyumba, 2 nights**
This Nyumba is located at the rim of Ngorongoro Crater where it is poised for optimal access to the crater floor where you will experience exceptional wildlife viewing. The air here has a heavenly fresh scent, though the high elevation (about 7,200 feet) makes for potentially chilly nights; it will be important to bring warm clothes, per your packing list.

**Gibb’s Farm, 2 nights**
Fresh food, fresh air, and fresh perspectives abound at Gibb’s Farm. At the end of full days of exploration, relax in your eco-friendly cottage, set amidst the farm’s lush gardens. Gibb’s Farm offers a variety of activities, adventures and opportunities to rejuvenate, from guided walks around the extensive grounds of this working coffee estate, to bike tours through the hills of the Ngorongoro highlands, to Maasai-inspired spa treatments Whether you wish to relax and recharge, explore the diverse natural surroundings, or learn more about the local culture and traditions, you have a variety of experiences to choose from.

**Mount Meru Hotel, Day Room**
The Mount Meru Hotel has been a mainstay of Arusha accommodations since it opened in the 1960’s, when Tanzania tourism was still in its infancy. It was recently renovated top to bottom, and the finished product is even better than the original. With reliable modern conveniences, a variety of dining options, and a central location, it is an ideal place to end your safari.

**Complete Itinerary**

**3/7/17 Depart From North America**

**3/8/17 Arrival into Arusha**
Thomson Safaris staff will meet you at the airport and transfer you to your comfortable lodge.
*Accommodations: Rivertrees Country Inn*

**3/9/17 Arusha to Eastern Serengeti Ecosystem**
Fly from Arusha to the Eastern Serengeti ecosystem. As you journey from the airstrip to camp, your guides will give you a brief history of the 12,000-acre refuge. Enjoy wildlife viewing along the way, one of the tangible results of conservation efforts in the area. Giraffe, eland, dik dik, ostrich, leopard and even wild dog can be seen in this unique wildlife haven, dubbed “Giraffic Park” by one enthusiastic Thomson guest. After lunch, immerse yourself in the semi-nomadic culture of the Maasai by visiting a local boma. Many Maasai still roam the plains of northern Tanzania with their herds of cattle, proudly maintaining their traditions while adapting to new ways of life. Finish the day with a brief but scenic walk (a luxury not available in the national parks). A local wildlife scout will accompany you and your guide on this walk, pointing out nearby wildlife.

*Accommodations: Eastern Serengeti Nyumba (BLD)*

**3/10/17 Eastern Serengeti Ecosystem**
Enjoy a light breakfast before heading out on a morning hike. Being out on the plains on foot at this time of day is magical; the sun creeping above the horizon bathes the plains in a soft morning light as animals, in particular predators, are at their most active. Later, you’ll meet members of the Enjipai Women’s Group, formed by a small group of Maasai women with a great entrepreneurial spirit. This afternoon, meet Maasai elder Nekaaki Kioki, a feisty grandmother and fantastic storyteller. She knows hundreds of Maasai folktales and tells them in a truly dramatic fashion. After dinner, take to the plains for a night drive. Because night drives are not permitted inside the national parks, few travelers in Tanzania have the chance to participate in such a unique experience.

*Accommodations: Eastern Serengeti Nyumba (BLD)*

**3/11/17 Eastern Serengeti Ecosystem to Serengeti National Park**
On your way out of the Eastern Serengeti, visit a school, teachers’ housing, or medical dispensary to learn how tourism can impact the community in positive ways through collaboration and understanding. As you journey into the heart of Serengeti National Park, you’ll be able to spot loads of wildlife. The big cats often spend these hours lying drowsily on the granite outcroppings of rock (also known as kopjes) that dot the plains, or up in a tree, while antelope, zebra, giraffe and other animals continue to graze.

*Accommodations: Southern Serengeti Nyumba (BLD)*
3/12/17 Serengeti National Park
During drives into the Serengeti, your expert guide will point out leopard hidden deep in the branches of a tree, lion stalking in the tall savannah grasses, and large herds of elephant wandering the plains (though you probably won’t have any trouble spotting those!). You will pack a picnic lunch so you don’t miss a minute of the action.
Accommodations: Southern Serengeti Nyumba (BLD)

3/13/17 Serengeti National Park
Those with advance reservations will have the opportunity to view the Serengeti from a truly unique vantage-point: floating high above it in a hot-air balloon. You’ll head to the launch site before daybreak, beginning your ascent just as the sun starts to rise over the stunning plains below. After a breathtakingly beautiful flight, you’ll be greeted with champagne and a full English breakfast, after which you’ll rejoin the group. For those who opt not to take the balloon excursion, there is much to discover within arm’s reach of camp; learn how to identify animal footprints and bird calls with your guide. For the remainder of the day, spend more time seeking out wildlife and exploring the Serengeti’s rich landscapes.
Accommodations: Southern Serengeti Nyumba (BLD)

3/14/17 Serengeti National Park to Ngorongoro Conservation Area
As you follow the meandering path out of Serengeti National Park, take in the gorgeous scenery and wildlife before moving on to the next part of your adventure. Make a short stop at Oldupai Gorge, a deep ravine and the site where fossilized remains of animals and hominids that date as far back as two million years were discovered. A brief lecture and small museum tour are included. Later this afternoon, arrive at your camp perched high above the crater floor in a forest of umbrella acacias. Take time to relax on your veranda and write in your safari journals or enjoy snacks and refreshments together around the campfire before dinner this evening.
Accommodations: Ngorongoro Nyumba (BLD)

3/15/17 Ngorongoro Crater
Early this morning, you’ll depart for Ngorongoro Crater, a self-contained ecosystem absolutely teeming with wildlife. Often called “Africa’s Eden,” this caldera is one of the few places on earth where it is possible to see all of the Big Five in just one day. And that’s just the beginning: baboons and warthog in the Lerai Forest, hundreds of brilliantly pink flamingo around Lake Magadi, and clusters of wildebeest and zebra call this ecological wonder home. To maximize your wildlife viewing time, enjoy your picnic lunch near a hippo pool. This evening back at camp, the chefs will prepare a special Tanzanian dinner featuring rich spices and an assortment of local meats and vegetables.
Accommodations: Ngorongoro Nyumba (BLD)

3/16/17 Ngorongoro Highlands
This morning, visit the home of Daniel and Elizabeth Tewa of the Iraqw tribe. Daniel, a charismatic local historian and storyteller will impress you with his encyclopedic knowledge of Tanzanian cultures and history. Elizabeth, a skilled artisan who has made hundreds of fancifully beaded “wedding skirts” will explain the iconography used in these works of art. You’ll visit a replica of Daniel’s childhood home; a mound-like traditional Iraqw hut, which Daniel built beside his own modern biogas-powered house to preserve his heritage and the environment.
After a farm-fresh lunch back at Gibbs Farm, head down for a visit to the FAME clinic, founded by Dr. Frank Artress, an American cardiac anesthesiologist. The Foundation of African Medicine and Education (FAME) serves communities near and far from its outpatient hospital in Karatu and its mobile clinic, which travels to remote regions with no other access to medical care. This evening before dinner, relax at the tembo fire, an open air sitting area nestled at the foot of the organic gardens. The tradition of the nightly campfire began as a purely practical measure to ensure that elephants – or “tembo” in Swahili – were not tempted to feast in the gardens at
night. It soon became a popular place to sit and relax at the end of the day.

Accommodations: Gibb’s Farm (BLD)

3/17/17 Ngorongoro Highlands
Did you know that 90% of all the fruits, vegetables, herbs, dairy products, and meats served at Gibb’s Farm come directly from the farm? This morning, you will enjoy one of two unique “farm to table” learning experiences: from-scratch bread making in the lodge’s bakery, or vegetable harvesting in the garden. Best of all, this afternoon at lunch, you’ll have a chance to taste-test your work! For the rest of the day, guests will have a chance to enjoy free-time walks, optional spa services (advance reservation and extra fees apply) or any of several optional activities available via the lodge. Or, if you are looking for a recommendation, perhaps you’d like to meet some of the local artists working at Gibb’s? Gibb’s Farm sponsors East African artists, from botanical illustrators to Makonde carvers, who live at the farm and develop their work. In fact, it is their sculptures, paintings, and artwork that adorn the many luxury cottages and facilities at Gibb’s. Meet with one of the artists and learn more about his or her work, inspiration and techniques. This evening, enjoy a delicious farewell dinner together in the dining hall before retiring to the comforts of your luxurious cottage rooms.

Accommodations: Gibb’s Farm (BLD)

3/18/17 Departure
Rise early to take in the delightful chorus of songbirds from your verandah. Breakfast at Gibb’s is a great way to start the day as everything is made with the freshest ingredients. Heading back to Arusha, you will make a brief stop at the Cultural Heritage Center which offers an abundance of wooden carvings, artifacts, apparel, and crafts. While the center caters mostly to tourists, they also have a separate wing that displays some of the finest African art in Tanzania. During a special farewell lunch at River House, you will have time to say goodbye to your safari companions and visit the heartwarming Shanga workshop. This socially conscious business creates new jobs and a sense of purpose for disabled local people who had few, if any, employment opportunities elsewhere. As the employees learn new skills, they are able to become active members of the community and make contributions to their families’ wellbeing. Transfer to a day room so you can freshen up and enjoy a light snack before your evening flight home.

Accommodations: Day Room at Mount Meru Hotel (BL Snack)

3/19/17 Arrive home

Please note: Thomson Safaris (TS) will attempt to adhere to this itinerary as much as possible. Any unforeseeable changes in fees, such as fuel surcharges, increased park fees or other fees that are out of TS control will be the responsibility of the guest. Some conditions (political, climatic, environmental, cultural, or wildlife migrations) may also necessitate changes in the itinerary. TS reserves the right to alter any itinerary at any time, if necessary. We will attempt to notify participants of changes as far in advance as possible. Costs incurred by such changes will be the responsibility of the participant.

Optional Hot Air Balloon Flight
Take in sweeping views of the African plains from a hot air balloon during your stay in the Serengeti. Launch at sunrise and, depending on wind conditions, float over the Seronera River Valley for 30 minutes to an hour. Upon descending, celebrate with a champagne toast, and enjoy a full English breakfast right on the savannah. You may see wildlife, but the most incredible part of the experience is the unforgettable bird’s eye perspective as you skim over the tops of acacia trees and observe the pristine landscape from above.

$540 per person; Space is limited
Advance reservations required; height and weight restrictions may apply

Pre- and Post-Safari Extensions
No extensions are offered in conjunction with this trip however, the experts at Thomson Safaris are happy to arrange customized extensions upon request.

How to Book

To reserve a spot, call Smith Travel at 800-225-2029, email alum trav@smith.edu, or mail the reservation form with your deposit to Smith Travel, 33 Elm Street, Northampton, MA 01063. A non-refundable deposit of $700 per person by Visa, MasterCard, American Express, Discover, or check, payable to Thomson Safaris. We cannot confirm reservations without a deposit. Final payment is due 90 days prior to departure and is payable by check, wire transfer or bank check. Credit cards are not accepted for final payment.

Airfare

International airfare is not included in the trip price. Thomson Safaris has access to competitively priced business class flights on Delta/KLM Airlines (based on availability). For the best rates in economy class, guests should visit Delta.com or KLM.com and look for routing into and out of Kilimanjaro International Airport (JRO). Guests are welcome and encouraged to call Thomson Safaris at 800-235-0289 for questions and guidance.

Insurance

It is highly recommended that you consider purchasing trip insurance that offers comprehensive coverage of expenses in conjunction with cancellation, illness or accident as well as damage or loss of luggage. Information will be promptly sent to you by Smith Travel following registration and payment of deposit.

Shares

Single accommodations are limited, subject to availability and cannot be guaranteed. Should you wish to share a room, we will attempt to find a roommate for you at your request. If we are unable to provide a roommate by the final invoice date, the single accommodation fee will be assessed.

Cancellation and Refunds

Notification of cancellation must be received in writing (by letter, fax, or email) to Smith Travel and Thomson Safaris. At the time we receive your cancellation, the following per person cancellation penalties apply:

- Up to 91 days before departure: Deposit
- 90-61 days before departure: 50% of the package price
- 60-46 days before departure: 65% of the package price
- 45 days or less before departure: 100% of the package price

Terms and Conditions

A detailed liability statement, concerning, among other things, limitations of Wineland-Thomson Adventures, Inc.’s liability for loss of property, injury, illness, or death, will be provided to passengers upon enrollment, along with an information form to sign and return to Thomson Safaris shortly after enrolling on the trip. Each of these forms is also available to prospective travelers upon request.
