Dear Smith Alumnae and Friends:

“Everything wears an aspect of unreality,” Ernest Shackleton wrote. “Icebergs hang upside down in the sky; the land appears as layers of silvery or golden cloud. Cloud-banks look like land, icebergs masquerade as islands...” Watch as normal human scales and reference points disappear amidst the grandeur of nature in its most pristine form, from extended sunrises that paint the icescape in soft shades of pink to the lingering golden light of the austral summer, where humpback whales, leopard seals and Adélie penguins swim among sparkling turquoise glaciers and glimmering icebergs. Be among the fortunate few to set foot on the continent of Antarctica, and see how its spectacular illuminations reveal the majesty and contrasts of this unique wilderness during your extraordinary 14-day journey to the bottom of the world.

Retrace the sea lanes navigated by storied explorers Shackleton, Amundsen and Scott, inspired to seek out the final frontier of “The White Continent.” Cruise for nine nights aboard the exclusively chartered, state-of-the-art, Five-Star, ice-class LE BORÉAL, one of the finest vessels in Antarctic waters. With private balconies in 95 percent of its ocean-view accommodations and encompassing state-of-the-art ship design and technology, LE BORÉAL sets the very highest standards in elegance and comfort.

The onboard expedition team of naturalists will guide you on excursions aboard sturdy Zodiac craft to satisfy your appetite for exploration amid floating ice sculptures, intricate ecosystems and abundant wildlife, especially penguins and seals that exhibit little or no fear of humans. A comprehensive schedule of exclusive and specially arranged lectures will complete your optimal Antarctic expedition.

We invite you on this once-in-a-lifetime program. All excursions and complimentary alcoholic and nonalcoholic beverages are included on board and each day offers a unique, personal Antarctic experience. This program is the best Antarctic cruise value and sells out quickly year after year. Make your reservation now!

Sincerely,

Elizabeth A. Bigwood

Buenos Aires/Ushuaia
Saturday, January 18
This morning, fly to Ushuaia, the world’s southernmost city, capital of Tierra del Fuego and the gateway to Antarctica. Embark LE BORÉAL this afternoon and cruise through storied Beagle Channel, named for the ship that carried Charles Darwin on his South American voyages. Attend the Captain’s Welcome Reception this evening.

Cruising the Drake Passage
Sunday, January 19 to Monday, January 20
Cross the legendary Drake Passage and, upon reaching the Antarctic Convergence, watch for seabirds and breaching fins of humpback whales feeding on plankton and krill brought to the surface by cold Antarctic currents merging with the warmer waters of the South Pacific and Atlantic Oceans. Your expedition team of naturalists will present insightful lectures, preparing you for your first landing in Antarctica. During the evening, enjoy the lingering twilight of the Antarctic summer.

The unique international Antarctic Treaty protects Antarctica’s wildlife and its natural habitats and provides a guide for visitors to this great continent, where no country has sovereignty. To protect the fragile Antarctic environment, all travelers will go ashore in small groups, so as not to crowd rookeries, disturb nesting sites or disrupt research. Visitors will be asked not to remove or leave anything ashore.

Buenos Aires
Friday, January 17
Birthplace of the tango, Buenos Aires is a city of diverse and dynamic barrios (neighborhoods). See the colorful La Boca district, Monserrat’s grand public buildings, historic Plaza de Mayo, Palermo’s lavish parks, Puerto Madero’s lively riverfront community and the charming old quarter of San Telmo. Visit the city’s renowned Recoleta Cemetery; lined with ornate vaults and sculptures, this necropolis is the final resting place of Eva Perón, the legendary former First Lady of Argentina.

Cover photo: Expert-led Zodiac excursions offer up-close viewing of craggy crescent peaks, intricate ice floes and fascinating wildlife that characterize the remote Antarctic landscape.

Photo this page: Enjoy the calm waters and the extraordinary surreal beauty of captivating glacier-lined Lemaire Channel, first traversed in 1898 by Belgian explorer Adrien de Gerlache.
Please note that the ship’s cruising pattern and positionings are dependent on weather, ice and sea conditions and are subject to change.

Cruising Antarctica
Tuesday, January 21 to Saturday, January 25
Cruise below the 60th parallel south to the outer shores and islands of the Antarctic Peninsula, Earth’s last frontier. Here, explore some of the world’s most pristine wilderness, where towering mountains of ice and volcanic rock create precipitous coastlines and islands, and ever-changing patterns of ice stretch toward the boundless blue horizon. In this seemingly harsh environment, a vast array of marine wildlife flourishes, including millions of penguins, countless seabirds and thousands of seals and whales. An otherworldly topography of volcanoes and glaciers, populated with riveting wildlife and historic outposts, unfolds, completely immersing you in the irresistible nuances of Earth’s most inaccessible continent for the complete Antarctic experience.

Cruise through breathtaking, glacier-lined Neumayer Channel to rugged Goudier Island. Visit Port Lockroy nestled among serene mountain peaks as high as 6000 feet. The port was originally constructed in 1944 by an eight-man team as an intelligence post for British espionage during World War II and was converted into a whaling station and scientific base in the 1950s; its surrounding grounds are populated by blue-eyed shags and gentoo penguins. Gain insight into the daily activities of past researchers at the living museum known as “Base A” and mail a postcard stamped with an Antarctica postmark from the official British Post Office.

Rocky Jougla Point on Wiencke Island offers a rare opportunity to view the skeletal remains of an adult blue whale and to see populous colonies of gentoo penguins and kelp gulls that inhabit the entire region.

Call at Petermann Island, the southernmost point of your journey, and watch its thriving rookeries of Adélie and gentoo penguins and blue-eyed shags. Flanked by sheer cliffs of towering glaciers between the Antarctic Peninsula and Booth Island, cruise through the Lemaire Channel, where seven majestic miles of mountains and interweaving patterns of ice floes brim with wildlife. Listen for the low rumbling of Rudolf Glacier as it calves slabs of ice into Neko Harbor, named for an early-20th-century Scottish whaling boat. Surrounded by soaring glaciers and snow-covered mountains, this spectacular harbor is one of the most dramatic sights on your expedition. Here, make your first “continental landing” in Antarctica.

In Paradise Harbor, crystal cliffs of ice descend from sky-bent mountains into the iceberg-laden waters along the Antarctic Peninsula’s western coast. Named by 19th-century whalers who sought shelter in contrast to sociable Adélie penguins, who congregate in large colonies, the bold, powerful and curious leopard seal cherishes solitude and independence for hunting and hiding.
Your journey to Antarctica offers an unparalleled opportunity for up-close observations of chinstrap penguins and their behaviors in nature.

in its coves, it is an ideal sanctuary for marine wildlife including humpback whales, crabeater seals and Cape petrels. Deception Island, actually the rim of a dormant volcano crater, encircles the Port Foster caldera. The ship enters through Neptune’s Bellows, a sublime harbor ringed by snowcapped peaks and sheer cliffs. In Pendulum Cove, see steaming, geothermally heated shallows. Observe the amazing colony of tens of thousands of chinstrap penguins at Baily Head.

Walk along the black-sand beaches of Telefon Bay to nearby craters for firsthand insight into the pivotal volcanic activity that created the island and shaped the natural history of the region.

One of the smallest but most beautiful of the South Shetland Islands, crescent-shaped Half Moon Island is known for its craggy volcanic rock formations and tranquil lagoons. It is also the site of Cámara Station, a base monitored by Argentine biologists studying regional wildlife. Here, observe the antics of the island’s colony of chinstrap penguins.

Reflect on board as the ship turns north, and attend the Captain’s Farewell Reception this evening.

Cruising the Drake Passage/Ushuaia, Argentina
Sunday, January 26
Cross the Drake Passage and enjoy lively, informative discussions with the ship’s naturalists. Watch for the endangered albatross and the many different species of petrels as you cruise across the Antarctic Convergence.

Exploration of Antarctica

The intrepid deeds of Europeans Roald Amundsen, Robert Falcon Scott and Ernest Shackleton; Americans Admiral Richard Evelyn Byrd and Lincoln Ellsworth; and Canadian Sir Charles Seymour Wright, legendary explorers of Antarctica, have long been recounted in gripping personal tales and history books. Admiral Byrd led the U.S. Antarctic expedition (1928-30) and made the first flight over the South Pole (1929). Byrd later led three additional expeditions to Antarctica, milestones in scientific polar research and mapping of the continent.

Lincoln Ellsworth, a Chicago native, made the first trans-Antarctica flight in 1935 discovering the continent's highest peaks, the mountain range later named Ellsworth Mountains in his honor. In 2018, American Colin O’Brady daringly became the first person to cross Antarctica solo, unsupported and unaided. He traveled across the West Antarctic ice sheet from the Ronne Ice Shelf to the Ross Ice Shelf, stopping at the South Pole along the treacherous route.

Your Expedition Team

Seasoned naturalists, who have studied and traveled extensively in Antarctica and the most remote regions of the world, accompany you on board and on excursions as your Antarctic Expedition Team. Their areas of expertise span marine biology, ornithology, ecology, geology, glaciology, conservation and environmental education, history and photography. The team's collaborative efforts, experience and particular interest in the world's ecosystems and enthusiasm for sharing their knowledge make them exceptionally well-suited to lead your Expedition to Antarctica.
