COLUMBIA AND SNAKE RIVERS JOURNEY
Harvests, History & Landscapes

September 15-21, 2012
Aboard National Geographic Sea Bird

Cosponsored with Bryn Mawr and Williams Colleges
“Our journey is most definitely not a cruise but a true expedition where we encounter new things and take an active part in exploring the land bordering the rivers. We hike and travel by Zodiac and kayak in areas deep in natural and cultural history. This is an active, rather than a passive, experience, and that makes all the difference.”

— Dr. Bob Gatten, staff historian and former president of the Lewis and Clark Trail Heritage Foundation.
Dear Smith Alumnae and Friends,

The Pacific Northwest has been a restless land. Great upheavals of earth have created mountain ranges, volcanic eruptions have covered the region with molten ash and rock, and unfathomable floods have scoured the earth — and this is where our journey begins.

This is an expedition 450 miles up the Columbia and Snake rivers, and an opportunity to experience the bounty of the Pacific Northwest. A chance to traverse through time — as the expedition historian and geologist reveal what lies beneath, so to speak, the visible landscape. Following in the wake of Lewis and Clark, we’ll see much of what they saw, stopping to explore their campsites, authentically recreated by expert historians.

The intimate, 62-guest National Geographic Sea Bird is perfectly suited to these historic waterways and series of eight locks that will lift us some 700 feet, nearly ten times that of the Panama Canal. And we’ll get closer, too. Every day we’ll explore the region — visiting museums, walking, kayaking, using our Zodiac landing craft or taking a jet boat — for up-close perspectives of this restless land.

Along the way, we’ll discover the culinary delights of the Pacific Northwest’s acclaimed vintners and farmers — enjoying the region’s remarkable wines and sustainably produced food.

I hope you’ll join us September 15-21 and discover the marvels and historic must-sees of the Pacific Northwest — a journey that shares the bounty of the region. To make your reservation, please call Smith Travel toll free at (800)225-2029 or return the attached reservation form.

Sincerely,

Elizabeth A. Bigwood

**ASTORIA:** “Ocean in view! O! The joy!” wrote William Clark in 1805 from the area that would become Astoria. This was the final destination for the Corps of Discovery and is now the oldest American settlement west of the Rockies.

**PORTLAND:** Referred to as the “greenest city in the U.S.,” Portland, Oregon sits at the confluence of the Columbia and Willamette rivers. Aboard a comfortable expedition ship, we are able to pass through the center of this picturesque city.

**JOHN DAY DAM:** This hydroelectric dam features one of the eight navigation locks we will pass through on our voyage, lifting or lowering the ship (depending on direction) over 700 feet. If the timing is right, we may be able to explore from the locks in Zodiacs.

Guests use onboard Zodiacs to explore along the Palouse River.
Hells Canyon: North America’s deepest river gorge, Hells Canyon encompasses a vast and remote region with dramatic changes in elevation, terrain, climate and vegetation. The jetboat ride through the canyon is both comfortable and exciting.

Palouse River: This winding tributary emerges from a remote desert canyon and features the spectacular 200-foot Palouse Falls. Along the river, you can head out in Zodiacs or in kayaks to capture the same feeling of discovery felt by Lewis and Clark.

Clarkston: Named for explorer William Clark, Clarkston and the nearby Clearwater River host several campsites established by Lewis and Clark. Historians will provide expert insight into what life was like for the explorers.

Vineyard: Pause to stroll a local vineyard and taste some of the bottled poetry of the region.

Travel Expedition Style Through Past & Present

Every step of this journey leaps from the history books and into present day — whether we are walking through old campsites or searching for wildlife that has inhabited the area for centuries. One aspect of our journey that doesn’t follow that historical path, refreshingly, is the style in which we explore.

Carrying just 62 guests and with a shallow draft, the expedition ship will take you where larger ships can’t go, up the narrow reaches of the rivers. The intimate and casual atmosphere and focus on exploration is what makes expedition travel the most engaging way to experience the world. Find comfortable cabins, fine cuisine that features fresh regional products, a menu of spa treatments, fitness equipment and seamless handling throughout your journey. Plus, cool tools for exploration — a fleet of kayaks and Zodiac landing craft are the perfect vehicles for everyone to experience an up-close view of this dramatic landscape.

Also, everything we offer — activities, excursions, meals, etc. — are all included in the cost of your expedition. Please see page 13 for details.

Featuring Culinary Highlights of the Pacific Northwest

Embark on a culinary journey that embraces the region’s vibrant food, wine and craft beer. Stroll vineyards and sample wine, and enjoy a menu our chef has planned for this voyage that represents the bounty of the region and so much more. An affiliation with the Food Alliance ensures the vast majority of our food is locally and sustainably produced. The Portland-based nonprofit organization Food Alliance offers the most comprehensive third-party certification program for sustainably produced food in North America. And, unique to us, some of our cuisine is picked up from providers along the way, so it’s literally as fresh as can be.
